ABOUT

Fresh graduate of the Computer Science program at Padjadjaran University with experience in frontend, web, and mobile application development. Experienced in building responsive web platforms and Android mobile applications using React Native, JavaScript, HTML, CSS, and other programming languages. Hands-on experience in converting interface design concepts into clean, functional code, developing interactive UI components, optimizing dashboard interfaces, and integrating dummy databases. Familiar with UI/UX prototyping using Figma, wireframing, component styling, system optimization, and visual content production. Demonstrates strong problem solving, attention to detail, teamwork, and adaptability skills, with a strong interest in pursuing opportunities in frontend engineering, web development, and mobile app development.

EDUCATION

Padjadjaran University | Computer Science
GPA : 3.12

August 2021 - August 2026

WORK EXPERIENCE

Kementerian Kesehatan RI – Jakarta, Indonesia

January 2025 – March 2025

UI/UX Designer Internship

- Redesigned and optimized the Event-Based Surveillance (EBS) interface on the Emergency Operations Center (EOC) dashboard to enhance visual clarity, user experience, and decision-making efficiency.
- Designed and aligned the interface for the SITCK (Health Reserve Personnel Information System) individual account homepage to improve UI consistency, navigation, and user convenience.
- Developed the interface for the SIPKK (Health Crisis Management Information System) dashboard website, focusing on data visualization, responsiveness, and usability to support crisis management workflows.
- Monitored and entered reports on disasters and health crises (disease outbreaks, natural and non-natural disasters) to facilitate data-driven rapid response.
- Managed and maintained data consistency for Health Reserve Personnel to ensure the accuracy and completeness of system records.

PROJECT

Mobile JKN Application Redesign – Padjadjaran University

Jatinangor, Sumedang

Mobile Developer / Front End Engineer

September 2025 – August 2026

- Redesigned and modernized the Mobile JKN interface as an undergraduate thesis project to enhance accessibility, navigation, and overall user experience.
- Conducted user-centered UI/UX research and created low-to-high-fidelity wireframes and interactive prototypes using Figma.
- Developed the frontend mobile application for Android platforms using React Native and JavaScript to bring the design concepts into functional code.
- Implemented core features and dynamic interface components, including an interactive health information carousel and custom stylesheets connected to a dummy database.

Project Management Web System – PT. Karlin Mastrindo

Jatinangor, Sumedang

UI/UX Designer / Front End Engineer

July 2025 – December 2025

- Designed and developed a web-based project management system to streamline project tracking, client complaint management, and staff performance monitoring.
- Applied User Research and Design Thinking to define multi-role access controls and tailored workflows for four distinct roles: Admin, Project Manager (PM), User/Client, and GM IT.
- Created interactive wireframes, high-fidelity UI prototypes, and design system components in Figma to ensure intuitive navigation and consistent visual hierarchy.
- Built responsive frontend interfaces and data monitoring dashboards using React.js, JavaScript, HTML, and CSS, enabling real-time status tracking and efficient ticket resolution for clients.

Ruang Aman Bersama – Padjadjaran University

UI/UX Designer / Front End Engineer

Jatinangor, Sumedang

January 2025 – June 2025

- Led the end-to-end design and frontend development for Ruang Aman Bersama, an educational and sharing platform aimed at raising awareness of mental health issues using Scrum.
- Conducted User Research and Design Thinking methodologies to define user personas, map user journeys, and establish intuitive application workflows.
- Designed comprehensive wireframes, interactive prototypes, and scalable UI design systems in Figma for seamless developer handoff.
- Developed responsive web interfaces using React.js to implement core features, including educational articles, discussion forums, content moderation, and online psychologist consultation modules.
- Executed usability testing and collaborated on quality assurance activities to validate feature functionality, resolve UI defects, and optimize front-end performance.

EXPERIENCE IN LEADERSHIP AND ORGANIZATION

UKM Spektrum Unpad

January 2024 - December 2024

Head of Media and Information Division

- Managed the Media and Information division by developing programs and strategic plans for the future of the Medfo division.
- Managed the creative team responsible for producing social media content, including posts, documentation, and live reports.
- Developed innovative and engaging social media content to attract external interest for the Spectrum organization.
- Monitor media timelines and coordinate with team members to ensure all content is posted on time, in line with the editorial calendar, and daily media operations run smoothly and efficiently.

TECHNICAL SKILLS

Programming & Web Development: JavaScript, HTML, React Native, CSS

Software Development: Design Thinking, Usability Testing, UEQ+, User Research, UI Prototyping

Tools: Visual Studio Code, Android Studio, Flutter, GitHub, Adobe Photoshop, Figma, Microsoft Office

PROFESSIONAL SKILLS

Leadership, Problem Solving, Team Collaboration, Time Management, Communication, Adaptability

CERTIFICATIONS & TRAINING

- Belajar Dasar Pemrograman Web — Dicoding, 2026
- Introduction to Financial Literacy — Dicoding, 2026
- Toefl Prediction — Merry English, 2026
- Speaking Partner — Kampung Inggris, 2024
- English Learning — EFE, 2023
- English for Adults: Elementary Levels — Lembaga Bahasa LIA, 2019

LANGUAGE

Indonesian : Native

English: Professional Working Proficiency

INTEREST

Frontend Development, Mobile Application Development, Web Development, UI/UX Design, Software Engineering
